

Organization Unit Code (OUC)

Every Department Code also has an Organizational Unit Code (OUC) associated with it. The OUC was developed for the Affirmative Action Office to use in identifying departments' work force units. The OUC depicts the organizational structure from the Chancellor down to the department level. One OUC can have multiple Department Codes. If there is more than one Department Code for an OUC, a Division Code is assigned.

Affirmative Action owns this code and Control Points go through the AA Office if they need to request a new OUC when a new department has been set up. Affirmative Action then requests the Accounting Office to set up a new OUC. Once the OUC number and title have been determined, Accounting contacts Administrative Information Systems (AIS) to set up the new OUC in the system. Once the OUC has been established in the AFP system, Accounting establishes the corresponding Department Code.

OUC Code	OUC Title
